One thing that attracts many people to Cincinnati to buy goods is the bargains that Cincinnati merchants advertise in the Cincinnati papers. Maybe Maysville merchants might keep some of the trade in Maysville if they would advertise bargains in the Maysville papers. Suppose you try THE LEADER.

Lyon was the recipient Wednesday of a barrel of the oysters from an Eastern friend, and as Mr. Lyon never does things "on the half shell," he invited sixteen good friends and true to share a banquet with him at the New Central, and it goes without saying that there was plenty of everything good to eat and drink—from crackers to champagne.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stands clear it is evidence of kidney trouble. Too frequent desire to urinate or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passage. It cures inability to urinate. The use and the extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention THE LEADER and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

NEGOTIATIONS

For Reciprocity Between Venezuela and the United States.

One of the First of the Southern Republics to Consider the Question.

Regulations Under Act of Congress Prohibiting the Taking of Fish from the Waters of the United States and Inhibiting the Importation of Seafoods into This Country.

WASHINGTON, Dec. 31.—It is said that one of the purposes of the present visit to Washington of the United States minister to Venezuela, Mr. Loomis, is to start negotiations for a reciprocity treaty between Venezuela and the United States. It is rather an unexpected step as Venezuela was one of the few South American countries which did not make a reciprocity treaty under the Dingley act.

The secretary of the treasury, with the approval of the president, has issued regulations under the act of congress signed Wednesday, prohibiting the taking of sealskins by American citizens except on the Pribilof islands, and inhibiting the importation into this country of pelagic sealskins. The regulations provide that no sealskins, raw, dressed, dyed or otherwise, manufactured in this country, shall be imported into the United States except that said skins were not taken from seals killed within the waters mentioned in said act, specifying in detail the locality of such taking, whether on land, at sea, and also the person from whom skins were purchased in their raw and dressed state, the date of such purchase and the lot number.

The post office department has ruled that an ex-union soldier drawing a pension under the dependent pension law may be reinstated in a position he formerly occupied in the service. The case arose in connection with the application of a veteran employed in the Philadelphia post office. In order to obtain a pension under the dependent act he must show that he is without means of support and is unable to do manual labor.

WASHINGTON, Dec. 31.—Controller of the Currency John D. Black, called upon the president Thursday afternoon to pay his respects and say goodbye. Mr. Black left for Chicago Friday morning.

Mr. Roosa, the dispatch agent of the state department at New York, has been directed to issue a statement distributed by the people of Montana through the Anaconda Standard, and that said announcement be sent to Gen. Lee and consular clerk.

WASHINGTON, Dec. 31.—The post office department has prepared advertisements, which will be issued, inviting proposals for furnishing adhesive stamps for the government for the four years beginning July 1 next. The issues advertised are for the ordinary stamps, news and periodical stamps, postage due stamps and those for use on parcels.

The number required per year approximate three billion. Under a special arrangement made two years ago the issue of furnishing stamps is now done by the bureau of engraving and printing, the bids received by the post office department at that time for furnishing stamps having been rejected. The arrangement terminates at the end of the contract which will result from the advertisements about to be issued will be effective.

WASHINGTON, Dec. 31.—Assistant Secretary Day has just received a response from the superintendent of the Ward line steamers in New York in answer to his inquiry as to whether he could announce that his line would convey supplies to Cuba for the relief of the suffering Cuban people free of cost. The prompt answer was:

"Will be pleased to accept supplies for Cuban sufferers and a favor will be done if the money is to be consigned to Gen. Lee."

The Anaconda, Mont., Standard telegraphed Wednesday night that the secretary of state could draw on the National Park bank, of New York, for \$200 already subscribed and for the Montana people for the benefit of the Cuban sufferers. More money is promised from the same source January 1, and this money is being distributed through Consul General Lee.

WASHINGTON, Dec. 31.—The arrangement effected between the United States and Canada, and the war department, contemplates that the relief expedition shall be executed jointly by the United States army and a force of the mounted police of Canada, which constitutes the military arm of the Dominion. The United States will go with the relief forces to Skagway where it will be joined by Canadian mounted police, about forty in number, and the two forces will be sent together to the points where the relief is to be distributed. The determination to start the expedition is still open. The Canadian officials concede much latitude to the American authorities in the actual distribution, recognizing that the expedition is British.
